

This expanding four in one pattern is the start of a coif. Keep adding rings until it is the diameter of your head and then join on some four in one maille pieces to cover the back and sides of your head. Below the chin can be joined square or in a deep V. Once you have enough to reach the bottom of your neck start expanding again so that it sits nicely out to the edge of your shoulders.

Total rings: 1 x 10mm rings
102 x 8mm rings

Making A Chain Maille Drink Coaster Expanding Four in One Pattern

With two sets of pliers close 6 8mm rings. Then take the 10mm ring and thread the 6 rings onto it then close it.
Note: the center ring of a different size is to help in working out which is the center ring. Until the second row is attached the piece will look like a mess. If the center ring is larger than 10mm then it will also be difficult because the 8mm rings can fit through it and tangle themselves up.

Now take 6 rings and join them each onto two of the existing rings as shown.

Take 6 more rings and infill them—each onto one ring.

Now take 12 rings and join them each onto two of the existing rings as shown.

Now take 12 rings and join them each onto two of the existing rings as shown.

Take 12 more rings and infill them—each onto one ring.

Now take 24 rings and join them each onto two of the existing rings as shown.

Now take 24 rings and join them each onto two of the existing rings as shown.

Total rings: 1 x 10mm rings
102 x 8mm rings
